EDUCATION

Florida International University, B.S., Computer Science - August 2020

Relevant course work:

Software Engineering 1
Programming III

Software Engineering 2
Data Structures

Programming II
Intro to Data Mining

WORK EXPERIENCE

Junior Software Developer - T R I M Agency, Ft. Lauderdale, FL (Fulltime-40hr/week)

December 2019 - Present

- Architect, implement, test and deploy interactive web applications, individual features and releases.
- Evaluate roughly 500 lines of code per week to ensure validity and proper structure.
- Design relational schemas using Prisma layered over corresponding database (MongoDB/MySQL).
- Implement 4-10 features/fixes per week.
 - **Stack:** Javascript/Typescript, NodeJS, ExpressJS for REST API, GraphQL API, Prisma, Yoga, Redis for background jobs, MongoDB, Docker for local development, Kubernetes or Heroku for deployment.
 - **Major contributions:** Architected and led 2 major releases in first 3 months, algorithm to find and migrate incorrectly parsed data, data migrations for multiple app versions and schema changes.

VP of Sales – ArX Solutions, Miami, FL (Fulltime-40hr/week)

January 2019 – November 2019

- **Promoted from Associate to VP of Sales on July of 2019.**
- Held meetings with various real estate clients to discuss the company's products and generated over \$120,000 in revenue in the course of 4 months.

Director – YouFit Health Clubs, Miami, FL (Fulltime-50-60hr/week)

January 2016 – January 2019

- **Promoted from Personal Trainer to Assistant Director in October 2016.**
- **Promoted to Director in April 2017.**
- Managed a team of trainers and ensured success of assigned club by consistently meeting club revenue goal, winning club of the month, and making it to 'Top Producers' rank company wide.

PROJECTS

Geek Text — Computer Science Bookstore Web App

<https://github.com/raroche/geek-text-ui/> | <https://github.com/raroche/geek-text-api>

- Implemented profile management/creation, Stripe payment storage with Springboot API and Stripe external API.
- Homepage UI and Navbar with welcome messages depending on login status with ReactJS.
- **Stack:** Javascript, ReactJS, Java, Springboot, & PostgreSQL

RHAZ — Unity Space Game (Global Game Jam 2020)

<https://github.com/wangscs/RHAZ>

- Implemented the logic portion of a short space adventure game
- **Stack:** Unity & C#.

Graph Theory – Graph Algorithm Visualization Web App (*In progress*)

<https://github.com/Jarriola989/graph-theory-ui> | <https://github.com/Jarriola989/graph-theory-api>

- Randomly generates directed and nondirected graphs with the desired number of nodes.
- Will run and visualize 10 most popular graph algorithms, e.g., BFS, Topological Sort, etc.
- **Stack:** Javascript, ReactJS, NodeJS, ExpressJS

PROGRAMMING LANGUAGES

- Javascript/Typescript
- Java
- HTML5/CSS3
- GraphQL
- C++

FRAMEWORKS

- NodeJS
- ReactJS
- Springboot

DATABASES

- PostgreSQL
- MySQL
- MongoDB

TOOLS

- Git (Github/Gitlab)
- Prisma
- Yoga
- Redis
- Docker
- Postman / Paw

SOFT SKILLS

- Scrum/Agile
- Quick study.
- Strong verbal/written communication.
- Presentational skills.
- Management/Leadership

EXTRACURRICULARS

Hackathons

- Code Fest 2019 Volunteer
- Global Game Jam 2020 Participant

Organizations

- Upsilon Pi Epsilon (UPE)
- Association for Computing Machinery (ACM)
